### Public Notice- Grocery Delivery for the Elderly and Disabled MTA Service Routes

Due to the request of the West Virginia Governor's Stay Home Order and to help fight the COVID-19 virus, MTA urges our passengers to only ride MTA buses if you need essential business services or work at an essential business location in our service areas.

**Starting the week of March 23, 2020, MTA will offer grocery drop off services for the disabled and elderly citizens to their homes. MTA will drop off at the front door any pre-arranged and pre-paid groceries purchased by any person who is elderly or disabled in our service areas.**

**The process is, call and place your order at the store of your choice, inform them a driver from MTA will be there to pick your pre-paid order up, then call MTA for your delivery and instructions for delivery and pick up time. MTA will call each person prior to delivery and for confirmation.**

We ask you to help MTA help you and others stay safe. MTA will update our schedule as the COVID-19 virus changes are updated. Please be patient due to the restrictions on MTA. We look forward to serving our communities through this difficult time.

For more information about the change and to schedule your appointments, please call (304) 872-5872.
